cPanel: H??ng d?n t?o Certificate Signing Request (CSR)
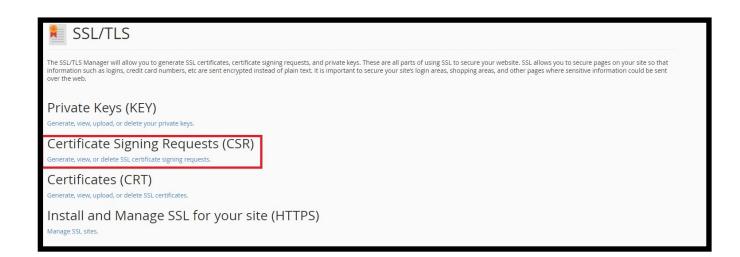

cPanel có h? tr? qu?n lý SSL/TLS, ?? t?o CSR trong cPanel, b?n th?c hi?n nh? sau:

1. ??ng nh?p vào cPanel -> Ch?n Security -> ch?n SSL/TLS

2. Ph?n Certificate Signing Requests (CSR), nh?p ch?n Generate, view, or delete SSL certificate signing requests.

SSL/TLS

The SSL/TLS Manager will allow you to generate SSL certificates, certificate signing requests, and private keys. These are all parts of using SSL to secure your website. SSL allows you to secure pages on your site so that information such as logins, credit card numbers, etc are sent encrypted instead of plain text. It is important to secure your site's login areas, shopping areas, and other pages where sensitive information could be sent over the web.

Private Keys (KEY)
Generate, view, upload, or delete your private keys.

Certificate Signing Requests (CSR)
Generate, view, or delete SSL certificate signing requests.

Certificates (CRT)
Generate, view, upload, or delete SSL certificates.

Install and Manage SSL for your site (HTTPS)
Manage SSL sites.

3. Nh?p các thông tin yêu c?u, nh?p Generate ?? t?o, l?u l?i k?t qu?, g?i CSR ??n nhà cung c?p SSL ?? kích ho?t SSL c?a b?n

Key*

Generate a new 2,048 bit key.   ▼

Domains *

maxserver.vn   **Nhập tên miền muốn**
                                                                   cấp ssl

Provide the FQDNs that you are trying to secure, one per line. You may use a wildcard domain by adding an asterisk in a domain name in the form: *.example.com*. NOTE: Many CAs charge a higher price to issue multiple-domain certificates (sometimes called "UCCs" or "SAN certificates") and certificates that include wildcard domains.

City*

Long Bien   **quận, huyện**

Provide the complete name for the city or locality. Do not use abbreviations.

State*

Hanoi   **tỉnh, thành phố**

Provide the complete name for the state or province. Do not use abbreviations.

Country*

VN (Vietnam)   ▼   **quốc gia**

Choose the country of origin for the certificate's company.

Company*

MAXSERVER CO., LTD   **tên công ty**

Provide the legally-registered name for your business. If your company name includes symbols other than a period or comma, check with your certificate authority to confirm that they are acceptable.

Company Division

HOSTING   **nghành nghề kinh**
                                                                 doanh chính

Provide the name of the division or group within the above company. If the division includes symbols other than a period or comma, check with your certificate authority to confirm that they are acceptable.

Email

admin@maxserver.vn   **địa chỉ email**

Provide a valid email address where you can be contacted for verification of domain ownership.

Passphrase

Some certificate authorities may require CSRs to have a passphrase. The certificate authority can use a CSR passphrase to confirm the identity of the person or organization with whom you wish to communicate. CSR passphrases are stored **unencrypted** in the CSR. Because of this, and also because you will share this passphrase with a third party, do not use an important password here.

Description
